Who We Are

Approach

Delivering essentials,
developing opportunities.

Vision

A stable, sustainable, and
thriving Horn of Africa.

Mission

We strive to alleviate
human suffering and build
self-reliance in the Horn of
Africa and here at home.

Advantage

ARAHAA is a unique aid organization as we only focus on the Horn of Africa. We speak the language of the region and we understand the local cultures. Our advantage helps us be well connected, well accepted, and welcomed by the local communities.

Our years of experience in region and our pool of resources equip us to expertly navigate the many challenges of working in the region. Our field offices and partners are officially registered, recognized, and respected by local governments in the Horn and abroad. We enjoy our work and do it professionally while constantly striving to improve our efficiency and effectiveness.

Director's Note

The Horn of Africa region still experiencing the longest continued drought the people of the region have ever seen. The spread of conflicts and wars in Ethiopia, Kenya, Sudan, and Somalia exacerbated the humanitarian situation as these conditions make access to surrounding markets difficult if not impossible.

Continued drought means millions of perished livestock causing the two important sources of food for nomad people; milk & meat to disappear. With food prices skyrocketing, families with limited income are forced to reduce their number of meals per day to once. As a result, acute malnutrition will increase - particularly among children - leading to higher mortality and famine.

In 2011, agencies that monitor rainfall, food supply, and food prices, among other factors predicted a famine 6 months before it happened and issued a warning. The public did not act until it was too late to save 260,000 people of which half were children. The public reacts to what they see in the media. Unfortunately, the mainstream media does not pick up the story until the toll of death become in the hundreds and thousands.

Now, the region is on the brink of famine, and the same agencies who predicted the previous famine are predicting a similar prediction this time. I hope we learned the lesson this time and are ready to make an early intervention. Early intervention not only saves lives but is also three times more cost-effective. When villagers experienced severe drought, they may need some help in terms of food and water for a few months until rain comes, and things go to normal. However, if they did not get help, they will be uprooted and move to another region and become internally displaced people (IDP) or cross the border to be refugees. In both cases, their need will not be only food and water but this time they will need shelter, health, protection, and livelihood.

Let us save lives before it is too late.

ARAHA Programs

Orphans

The orphan program has long been a fundamental component of our organization. We proudly provide sponsorship, general support, holiday gifts and much more.

Emergency Aid

When crisis strikes in the Horn of Africa, ARAHA mobilizes quickly to give families the support they need through times of upheaval.

Energy

ARAHA has focused on helping refugees and displaced peoples use solar power to improve household life and chores even while in transit.

Health

ARAHA is dedicated to improving health outcomes in the Horn of Africa through a number of initiatives aimed at building local capacity and addressing local needs.

Self Reliance

ARAHA's programs are all guided by a desire to create viable pathways to opportunity and economic independence for families in the Horn.

Education

ARAHA is deeply committed to ensuring that every child in the Horn has access to an education.

Water

Essential for daily life and health, access to clean water is not always a simple proposition for families and communities in the Horn of Africa region.

food

Through periods of drought and famine, ARAHA ensures that families across the Horn are nourished and sustained.

Life saver Campaign

Lifesaver campaigns allow you and your family or community to work together in making a specific ARAHA project in the Horn of Africa possible.

Thanks to your generosity,

5,733 families received food baskets in Somalia, Kenya, Sudan, and Ethiopia, serving over 27,600 people.

250 families benefited from a Community Center in Ethiopia.

31,355 people received water aid for drought response in Somalia, Kenya, Sudan, and Ethiopia.

2,437 orphans were sponsored across the region.

2,988 children benefited from the School Meals Program

113 college scholarships were provided for students in need.

10 housing units were constructed for families displaced by flood in Sudan.

+7 million meals distributed from food containers.

43,733 people received beef or goat meat for cooking to fight malnutrition.

Somalia

Food Baskets: 17,628 beneficiaries

Vocational Training
School Lunch
Sanitary Pads

Solar Lighting
Orphan/ Family Shelters
Drought Relief

Development Report

Our individual donors are the heart of ARAHA. From the inception, through hundreds of successful projects, you make our work possible. One of the most exciting ways you can become involved with ARAHA is our Lifesaver Program. Becoming a lifesaver isn't just about fundraising, it means advocating for ARAHA and the opportunity to truly help people in need. You'll have a more meaningful connection with your community as you watch your project come to life. We'll support you along every step of the way and provide reports once the project is complete. It's a chance to make a powerful impact in this world, while so many are silent. Together, we can build a brighter, sustainable future for people in the Horn of Africa.

For more information on Lifesaver Campaigns, reach out to our Development Director, at developmentdirector@araha.org.

Our partners (2022)

We would like to take this opportunity to express our gratitude to the people responsible for making all of this possible. To our donors, volunteers, collaborators, partners, supporters and staff: thank you for making 2022 a wonderful year!
